

...together making a difference in Africa...

Packing List

Important Tips

- 1) **Pack early:** Don't wait until the last minute to begin packing! At least two days prior to departure is recommended. Packing early will enable you have a good estimate of how many bags you have, and the weight per bag. All team members are required to bring their baggage to a central location, from where we'll be traveling.
- 2) **Baggage limits** are much more restrictive for overseas travel compared to domestic travel. Be sure to check with your airline for specific limitations. You can also confirm from the Team Leader after the tickets are purchased.
- 3) Typically, for trans-Atlantic travel originating from the U.S. each passenger is allowed *2 checked bags only*. Each checked in bag is not to exceed 50 pounds in weight. The size of each checked in bag: length + width + height total may not exceed 62 inches. The baggage allowance for travel within Africa is usually less than for trans-Atlantic flights.
- 4) One carry-on bag (plus a purse) is normally allowed, with a much lower weight limit. Carry-on bags must be able to fit in the overhead storage compartment or under your seat.
